

FIND HAMBURG-AMERICAN OFFICIALS GUILTY

DEFENDANTS TAKE VERDICT CALMLY

Specific Charge Was Conspiracy to Deceive and Defraud United States

APPEAL IS EXPECTED

Maximum Penalty for Each Indictment Is Two Years Imprisonment and \$10,000 Fine

SENT SUPPLIES TO CRUISERS

NEW YORK, Dec. 2.—Three high officials and a subordinate officer of the Hamburg-American line were found guilty tonight in the federal district court of having violated the laws of the United States in sending coal and other supplies to German cruisers in the South Atlantic in the first few months of the European war. The jury returned a verdict of guilty on each of two indictments. Charged Conspiracy to Defraud. The specific charge against the defendants was conspiracy to deceive and defraud the United States. The maximum penalty for each indictment is two years imprisonment and \$10,000 fine. Sentences were not imposed tonight and because of the late hour when the verdict was reached Judge Howe deferred until tomorrow morning a hearing on the formal motions to set aside the verdict and arrest judgment. A date for passing sentence will then be designated. The jury was given the case at 2:40 o'clock this afternoon and announced the verdict at 10:10 o'clock tonight.

An appeal to the federal court of appeals is expected to be taken. In the meantime the defendants probably will remain at liberty under \$5,000 bail each, as it is the present intention of the government not to ask that the bond be increased.

Defendants Affected by Verdict. The four defendants affected by the verdict are Dr. Karl Buezn, managing director of the Hamburg-American line in New York, former German consul general here, former German minister to Mexico and German commissioner in the Venezuelan arbitration proceedings before The Hague tribunal; George Kotter, general superintendent of the line; Adolph Hachmeister, general purchasing agent; and Joseph Poppinghaus, a former officer in the German navy and at present a second officer in the Hamburg-American line.

A fifth defendant, Felix Seifner, super-cargo on one of the neutral ships sent to supply the German fleet, was not brought to trial. He was captured by the British while on his errand of relief and is at the present time a prisoner in a Canadian detention camp.

The four defendants took the verdict calmly. After the jury had filed out Dr. Buezn turned to Kotter, sitting at his left, and rising the two shook hands. Hachmeister sat silent. Poppinghaus, tall, athletic, youngest of the four, rose to his full height and smiled.

"I do not care," he said in broken English. "This is not the last word."

The trial of Dr. Buezn and his three associates was the culmination of an investigation begun last winter by agents of the department of justice into the chartering and sailing of certain neutral vessels from American ports in August, September and December, 1914. These vessels, sixteen in number, sailed for South American and African ports and in two cases for Cadiz, from New York, Philadelphia, Newport News, Pensacola and New Orleans.

One Transferred Supplies.

In some cases the vessels showed up at points other than their destination. In other instances they were captured by allies' warships, many miles off their course and in one instance—the American Steamer Berwind—actually transferred supplies to two German converted cruisers.

In every case a German super-cargo, supreme in command, sailed and directed the vessels' movements when she reached the high seas. Once in court the defendants freely admitted that they had chartered twelve ships and outfitted them at a total expense of more than \$1,400,000 and sent them out to succor German men of war. This, they contended, they had a right to do. They denied all intent to deceive or defraud the American government and said they sought to deceive only the enemies of Germany.

UPHOLDS PUBLICATION OF SUNDAY NEWSPAPERS

MISSOURI SUPREME COURT DECISION FAVORS ST. LOUIS POST-DISPATCH

Holds Contracts for Advertising in Sunday Newspapers Are Valid—States Press Is One of the Four Great Institutions of the Country.

Jefferson City, Mo., Dec. 2.—The validity of contracts for advertising in Sunday newspapers was upheld by the Missouri supreme court today. The case at bar was a suit of the Pulitzer Publishing company (St. Louis Post-Dispatch) against Henry J. McNichols for part payment on a contract for Sunday advertising. McNichols' defense was that the publication of a newspaper on Sunday was a violation of the state labor law.

The St. Louis court of appeals decided against the Post Dispatch, which appealed.

The opinion of the supreme court says: "The only question presented for determination is whether the publication of the great daily papers of the country on Sunday is a work of necessity."

"The service the press is rendering to humanity is performed on Sunday as well as upon Monday or upon any other day of the week and its beneficence is more potent on the former than on the latter for the simple reason that the tolling masses have more time to read the papers on Sunday and therefore acquire greater knowledge and information from them on that day than upon any other day of the week."

"Upon this state of affairs, where is the court or jury in Christendom that would convict the publishers of the Post Dispatch if indicted for publishing that paper on Sunday? This is the test. Of course, they do not exist and that is because the former would take judicial notice of the fact that such publications are matters of public necessity."

"The press imparts intelligence regarding the public health, public morals and public safety and materially aids in the preservation of the two former and in the defense of the latter; it is the mouth-piece of the statesman and lawmaker; it points to the capable and honest official usually with just commendation and singles out the inefficient and those derelict in duty and, as a rule, is at the head of those collecting and disbursing public charity."

"Moreover the press is a great educator in literature, art and science. Railroads the street cars, the telegraph and telephone have been declared public necessities. The press is a greater public necessity than all of them. In my opinion it ranks as one of the four great institutions of the country, namely the home, the church, the public schools and the press."

JEW IN AMERICA CONTRIBUTE MORE THAN \$1,300,000 FOR RELIEF

NEW YORK, Dec. 2.—The Jews in America have contributed more than \$1,300,000 to the relief of destitute members of the race in the war areas and in Palestine, according to a report made public here today by the central committee for the relief of Jews suffering thru the war.

The report declares that the situation of the Jews in Europe and Palestine is even worse than that of the Serbians and Belgians and that it is a question of saving them from extinction.

MIKADO REVIEWS TROOPS.

Tokio, Dec. 2.—The greatest military spectacle of peace times in the history of Japan was witnessed in Tokyo today. Fifty thousand soldiers selected from all parts of the empire, were reviewed by Emperor Yoshihito in celebration of his coronation. Ten aeroplanes and several dirigibles accompanied the aerial branch of the service.

HEPBURN IMPROVES.

Clarinda, Ia., Dec. 2.—A decided improvement in the condition of W. P. Hepburn, former congressman from the Eighth Iowa district, was reported by his physicians this morning. They expressed strong hope of his entire recovery.

tache at Washington, had directed the expenditure of \$750,000 additional, which was sent here from Berlin in August, 1914. The government charged that virtually the entire \$750,000 was spent in furtherance of plans to aid German warships at sea, under the supervision and with the knowledge of Captain Boy-Ed.

When the defendants took the witness stand it was brought out that the line's activity in sending supplies to German warships was the result of an agreement made in 1913, long before the war, between the Hamburg-American line and the German government.

MANN IS CHOSEN MINORITY LEADER

House Republicans Effect Organization for the 64th Congress

COOPER MAKES PROTEST

Resolution Is Adopted Authorizing Mann to Select All Republican Members

DEMOCRATS FAIL TO AGREE

WASHINGTON, Dec. 2.—Republican members of the house effected their minority organization for the 64th congress tonight with Representative Mann of Illinois as candidate for speaker and thus again minority leader. The 140 representatives present acted unanimously except in one instance when Representative Cooper of Wisconsin, protested unsuccessfully against the adoption of a resolution authorizing Mr. Mann to select all Republican members of committees.

Cooper Attacks Principle. Mr. Cooper attacked the principle of vesting in any one person the power of naming Republican committeemen and referred to the rules' fight in the house some years ago. Representative Cannon of Illinois, who as speaker was shorn of some powers by that fight, was persuaded not to reply by colleagues who sought to avoid a discussion.

Representative Mann in a speech accepting his nomination, spoke of having been invited to confer with President Wilson about national defense.

"I think it would be well," he said, "for these matters to be considered in the military and naval committees, provided the Democrats are willing to work on even terms with Republicans, calling in experts, but I do not think that anyone should expect the president to prepare a program in advance, send it down to the Democrats to swallow and then ask the Republicans to accept it as non-partisan."

Nominate Officers. After choosing the candidate for speaker the Republicans named Representative Green of Massachusetts chairman and Representative McLaughlin, Michigan, clerk of the caucus and nominated the following for officers:

Clerk of the House—Clarence W. Price, Pittsburg, Kans. Sergeant at Arms—C. W. Sheldon of Pennsylvania. Doorkeeper—Aiken S. Tallman, New York.

Postmaster—George W. Denny, Tennessee.

Chaplain—Rev. Dr. H. H. Couden, Washington, D. C.

The caucus, which was held in the house chamber and open to the public, was preceded this afternoon by an informal conference at which the organization slate was agreed upon for submission to the caucus.

Representative Cannon in his speech nominating Representative Mann, declared that the Republicans all agreed on the necessity of enactment of new economic legislation.

Washington, Dec. 2.—Democrats of the senate failed in conference today to reach an agreement on a proposal to limit debate. They will resume discussion of the issue tomorrow but several senators intimated that no closure agreement could be reached in conference and that a rules fight would develop on the floor of the senate when congress convenes next Monday. Such a contingency, it was admitted, might delay organization of the senate and prevent the holding of a joint session of house and senate Tuesday to hear the president's message.

Administration leaders, however, expressed confidence that some agreement on rules would be worked out by Monday.

Besides the closure fight the conference tomorrow will decide on a candidate for president pro tempore. Senator Pomeroy of Ohio, is a candidate against Senator James P. Clarke of Arkansas, who seeks reelection. The alignment tonight of each side were appealing to four absentees to hasten to Washington. The absent senators are Lewis of Illinois, Martine of New Jersey, Lea of Tennessee and Culberson of Texas.

ITALIANS LAND AT AVLONA.

Paris, Dec. 2.—Detachments of Italian troops were landed at Avlona, Albania on Tuesday according to information from a reliable source in Athens, says a dispatch to the Temps from the Greek capital today.

WASHINGTON, Dec. 2.—The battleship Connecticut left Port Arthur last night for Philadelphia, heading the withdrawal of American naval forces engaged in the pacification of Haiti. Rear Admiral Caperton remains for the present with his flagship, the cruiser Washington, several gunboats and more than 2,000 marines.

MELLEN ADMITS MONEY WAS USED TO BLOCK EXTENSIONS

NEW YORK, Dec. 2.—Charles S. Mellen, former president of the New York, New Haven and Hartford railroad, admitted on the stand today at the trial of the eleven former directors of the road that some \$120,000 in New Haven money had been spent in publicity and lawyer's efforts to block proposed extensions of the Grand Trunk railway of Canada into New England. He also testified that after bargaining over a period of four years, the roads finally reached, in November, 1913, a traffic agreement and that coincidentally the Grand Trunk gave up its proposed extension from Palmer, Mass., to Providence, R. I., and the New Haven abandoned on the same day a plan to parallel the Grand Trunk's lines in Vermont.

MOVE TO ORGANIZE AMERICAN FARMERS

National Conference On Marketing and Farm Credits Takes Action

ADOPTS RESOLUTIONS

Plan Provides First for the Forming of an Agricultural Organization Society

OUTLINES SOCIETY'S PURPOSE

CHICAGO, Dec. 1.—Resolutions creating a central committee to organize the farmers of America into co-operative societies covering every farm product from poultry and garden truck to grain and livestock and operating in every county and each of the forty-eight states, were unanimously adopted today at the closing session of the National Conference on Marketing and Farm Credits.

Largest Co-Operative Movement. The adoption of these resolutions by conference composed of delegates from forty-five states was declared by Chairman Frank L. McVey, president of the University of North Dakota, to be the largest co-operative movement ever launched in the history of the world.

The plan provides first for the forming of an agricultural organization society on a permanent financial basis which shall have charge of the general organization and educational work.

Prominent among those who stand sponsor for the movement are Gifford Pinchot, Philadelphia; Sir Horace Plunkett, Ireland; Harris Weinstock, San Francisco; E. M. Tousey, Minneapolis; Secretary of Right Relationship league; John Lee Coulter, University of West Virginia; Frank L. McVey, president of the University of North Dakota; Alexander E. Cance, professor of agricultural economics, Massachusetts State Agricultural College; H. W. Danforth, Washington, Illinois, president of the National Council of Farmers Co-operative association.

Define Purposes of Society. The purposes of the Agricultural Organization society to be formed are defined in the resolution adopted as follows:

"To examine into the methods of production and distribution of farm products with a view of evolving a system of greater economy and efficiency in handling and marketing the same."

"To encourage and promote the co-operative organization of farmers and those engaged in allied industries for mutual help in the distribution, storing and marketing of produce. To furnish instructors and lecturers upon the subject of co-operation among farmers, auditing and accounting experts and legal advice on matters relating to organization."

"To issue reports, pamphlets and instructions which will help in spreading knowledge of the best means of rural betterment and organization."

"To encourage and co-operate with government departments, educational institutions, societies, educational centers, etc., in all efforts to solve the questions of rural life, rural betterment and agricultural finance and the marketing and distribution of produce and the special application of the facts and methods discovered to the condition existing among the farmers of America and to the solution of the problem of the increasing cost of living."

"To investigate the land conditions and land tenure with a view to working out better, more equitable and fairer systems of dealing with this problem so vital to the social and the economic well being of the country."

"To call from time to time such conferences or conventions as will help to carry out the above mentioned objects."

The resolutions also provide for the permanent organization of the National Conference of Marketing and Farm Credits and the making of this conference an annual event for the purpose of discussion of the problems that surround the production, distribution and financing of the American farm and American farm products.

TO ABOLISH BASEBALL.

Minneapolis, Dec. 2.—The University of Minnesota senate, a faculty body controlling university activities decide tonight to abolish intercollegiate baseball at the university. The senate also instructed Prof. James Paige, the Minnesota delegate to the meeting of the Big Nine conference at Chicago, next Saturday, to vote for the retention of conference "summer baseball rule" and to advocate a football rule permitting but one day each week of open practice, which the public would be allowed to witness.

FERGUS AMENDED BILL CONTAINS NEW CHARGES

ALLEGES OFFICERS KNEW IRREGULAR PAYMENTS WERE MADE

Asks That Russel and Brady Be Made Personally Liable for the Refunding of the Money to the State.

Springfield, Ill., Dec. 2.—New charges relating to legislative committee expense funds were contained in an amended bill of complaint filed today in the Sangamon county circuit court by Fayette S. Munro, as attorney for J. H. Fergus, the taxpayer whose previous injunction suits were responsible for the calling of an extra session of the legislature.

The bill filed today contains new charges against Lieut.-Gov. Barratt O'Hara and members of the legislature, asserted that Andrew Russell, state treasurer, and James J. Brady, state auditor, knew that irregular payments were made and asked that these latter officials be made personally liable for the refunding of the money to the state.

The bill charged "that there was a well-defined scheme and plan by which various persons sought to deplete the state treasury," and that the auditor and the state treasurer not only failed to prevent the consummation of this alleged scheme, but "knowingly and wilfully allowed various persons to receive certain sums of money."

Charges against Lieut.-Gov. O'Hara include the following: That the lieutenant-governor failed in an attempt to obtain an appropriation of \$10,000 for the expenses of his white slavery investigating committee.

That thereafter he planned "a trick and device whereby the treasury was to be depleted of the sum of \$10,000."

That nine vouchers in the names of Charles F. Trick, Claborne S. Close, Ralph Pope and F. H. O'Hara for pretended services were signed by the lieutenant-governor, and that with one exception all were delivered to one person who obtained the money.

The bill identifies F. H. O'Hara as a brother of the lieutenant-governor, Charles F. Trick as chief clerk to the law secretary of the senate, and Claborne S. Close as janitor to the lieutenant-governor.

That the nine vouchers for various odd amounts totaled exactly \$10,000.

Lieut.-Gov. O'Hara issued a written statement today in which he said that the \$10,000 appropriated to the senate welfare, or white slave committee and attacked by John B. Fergus, as illegal, was "drawn from the state treasury to cover the expenses incurred and contracted for."

DR. DYSON HEADS UNITED STATES LIVESTOCK SANITARY ASSOCIATION

CHICAGO, Dec. 2.—Dr. O. E. Dyson of Springfield, Ill., was elected president of the United States Livestock Sanitary association at the closing meeting of the organization tonight. Other officers elected were John J. Ferguson, Chicago, secretary; treasurer, Dr. Carr, Auburn, Ala.; vice-president; Dr. C. E. Stange, Ames, Iowa, second vice-president.

The meeting place for the coming year will be chosen by the new officers.

SIX WAITERS ARE THE FIRST WITNESSES FOR JOHN J. HALPIN

CHICAGO, Dec. 2.—Six waiters were the first witnesses today for John J. Halpin, former chief of detectives, when the state rested its case and the defense began.

The terms of employment of the waiters at a downtown restaurant, taken consecutively, covered the period 1911-13. Witnesses for the state testified that Halpin had been with "Barney" Bertsche in the cafe. The waiters testified that they had never seen him with Bertsche, the principal witness for the state, or with James or Frank Ryan in the restaurant. The Ryans and Bertsche testified that Halpin had accepted bribes to protect their swindling operations in so-called clairvoyant parlors.

LOVE BANDIT ROBS WABASH TICKET OFFICE IN SPRINGFIELD

Springfield, Ill., Dec. 2.—A love, armed bandit held up Ticket Agent Bruno Adams of the Wabash railroad at 8 o'clock tonight, and secured \$35.

The robber escaped. Adams had just entered the office when the bandit knocked on the door. When Adams responded, a large revolver was thrust in his face, and he was ordered to give up the money in the till. Adams was backed against the wall, while the robber helped himself to the cash, then backed out the door and escaped. The robber overlooked \$35, which was secreted in another drawer.

Iowa City, Ia., Dec. 1.—Frank Gotch, world's champion wrestler, has been asked to become coach of the Iowa University wrestling squad this season, it was announced today. He has the offer under consideration.

ITALY WILL SEND HELP TO SERBIANS

Announces Adhesion to Agreement Not to Conclude Separate Peace

MAY CLEAR SITUATION

Negotiations Still Proceeding Between Greeks and Ministers of the Quadruple Entente

BOMBARDMENT ORDER OF DAY

LONDON, Dec. 2.—Italy, thru her foreign minister, Baron Sonnino, has announced her adhesion to the treaty of London, whereby the allied powers undertake not to conclude a separate peace and at the same time has declared her intention of sending help to the Serbian army in the Balkans.

Negotiations Still Proceeding. This news, the most important for several days, will go far to clear the situation, especially in Greece, where negotiations are still proceeding between King Constantine, his cabinet and the ministers of the quadruple entente. These negotiations have been protracted owing to Greece's unwillingness to allow the allies free use of the railways and the right to police Greek waters against submarines. They are not yet completed but the latest advances indicate that they are likely to end in complete satisfaction to the entente powers, the assurance that Italy, as well as Great Britain, France and Russia, is to give military support to the Serbians, in their efforts to regain their lost territory making the case for Greek assistance stronger.

Otherwise the situation in the Balkans remains unchanged. The Serbians still hold Monastir but their position is almost hopeless, as the Bulgarians have cut communications between that city and the Greek frontier and the Serbian troops still there must, like the army of the north, retreat into Albania when the pressure becomes too strong.

Report Russ Cross Border. There is a report that the Russians have crossed the Roumanian border and are marching thru that country to Bulgaria. This, however, lacks confirmation and such a movement is hardly likely to occur unless Roumania gave her permission, which would be tantamount to joining the allies.

Another report credits the Russians with diverting their Bessarabian army toward Galicia, where a big offensive is to be undertaken. This likewise is unconfirmed.

On the other fronts, Italian, French and Russian artillery bombardments are the order of the day. The British, French and Belgian guns have been particularly active as have the airmen in Flanders, and the German positions have been given a rather severe battering. British monitors took part in these operations suggesting that this may be the point where the next offensive will be undertaken.

There is still a good deal of talk in the neutral press about peace, based on reports from Germany of the activity of the Socialists and from Austria on dissatisfaction there with alleged German attempts to take control of the internal administration, as has been the case in military affairs.

It is considered significant that all the new Austrian ministers are men with German leanings, which is thought to mean that the German party has been successful.

In the south the work of improving land conditions has been undertaken in a very active way by women. In eighty-three counties in Tennessee, Arkansas and Mississippi, women are conducting a better farming campaign. The workers go into the various country communities, hold meetings or institutes and in addition go from house to house discussing such questions as rural sanitation, child welfare and domestic science in addition to agricultural problems. The practical side of the work is presented by a Birmingham woman who by a system of crop rotation trebled the value and increased the productivity of land she owned. It is only thru such cooperative efforts as this that the people of the south will see the error of the one crop system that they have followed in the past. In some parts of the south they are now growing corn and other products but in a vast area the people still believe that cotton is the only crop which can be raised profitably.

New Exposition Record.

According to the original plans the Panama-Pacific exposition will come to an end at midnight tomorrow, after establishing the unique record of having been a paying venture. The three previous expositions in the United States—Philadelphia in 1876, Chicago in 1893 and St. Louis in 1904, while great in many ways, did not record financial success. It is believed that the Panama-Pacific exposition will close with a balance of from a million and a half to two millions on the right side of the ledger. The records show that 18,000,000 people have passed thru the gates since the exposition opened in February. The visitors have represented all parts of the United States and a vast amount of valuable advertising has been given to the Pacific coast country. It was feared for a time that the war in Europe would materially interfere with the scope of the exhibits and with the attendance. This did not prove true, and in the matter of attendance the war seemed rather to cause an increase for there were a great many tourists who, shut off from Europe, availed themselves of the opportunity of familiarizing themselves with the wonders of their own country which the exposition made possible.

prominently mentioned among them are Mrs. Grace Wilbur Trout of this state, and Mrs. Winston Churchill of New Jersey. There are others, of course, but based on accomplishment, Mrs. Trout should easily carry off the honors. Her work in this state, especially with reference to the legislature, gave very clear evidence of her saneness and ability as a leader. Mrs. Churchill is a very able woman but her chances have been marred by the overwhelming defeat which the suffrage movement had in New Jersey.

While various victories can be reported to the convention which have been won since the last meeting, there must also be some reports of defeats which have been encountered. But summed up, the progress has been made. The greatest difficulty which confronts the national association is the avoiding of factional differences. To accomplish their ends the women must come to an understanding as to whether suffrage will come thru a constitutional amendment or by state action. There are other questions of almost equal moment and if the delegates are wise they will profit by the experience of some other national bodies and effect such compromises that they can face their battles with an undivided front.

Praise for the Press.

A very high tribute to the newspapers of the country is contained in an opinion of the Missouri supreme court which has just been rendered. A suit was brought by the publishers of the St. Louis Post Dispatch for part payment on a contract for Sunday advertising. The advertiser set up the plea that the publication of a newspaper on Sunday was a violation of the state labor laws. His contention was upheld by the St. Louis court of appeals but the supreme court reversed that opinion and incidentally lays great stress upon the service to the community performed by the press.

The publication of Sunday newspapers is justified by the statement that the press is a greater public necessity than the railroads, the street cars, the telegraph, and the telephone, all of which have previously been determined public necessities and their rights to operate on Sunday allowed. The court held that no jury could be found that would indict the publishers of a newspaper because of a Sunday issue. The court said that the press aids in the preservation of the public health and morals and in the defense of public safety; that it is a great educator, in literature, art and science, and contributes very largely to the public well-being. In other words, it is declared that the press is performing a real service to humanity and that even greater good is done on Sunday than upon other days of the week because the great mass of the people have more time to devote to reading upon that day.

The press is often properly criticized for failure to live up to possibilities but there is no denying the truth that the average papers has publishers who really seek to do more than make their papers business institutions and who have some realization that publication of a newspaper borders upon a public trust. They know that the papers hold large possibilities which may be used for the up-building and betterment of the several communities wherein they are published. It is the purpose of most papers to do good rather than evil, to build up rather than to tear down, and a person who in an unbiased way studies the press of the country will be convinced that the tribute paid by the Missouri court was not undeserved.

MAIN BUILDING AT COLLEGE OF
EMPORIA IS DESTROYED BY FIRE

EMPORIA, Kans., Dec. 2.—Stuart Hall, the main building at the College of Emporia, was destroyed by fire early today. Defective electric wire is believed to have been the cause. The damage is estimated at \$75,000.

Stuart Hall was built in 1886. It was the first building of the college. Classes were resumed after the fire in improvised rooms in the gymnasium, science building and library. The college is now in the midst of a campaign for an endowment fund but according to the terms of the subscriptions none of this money may be used for buildings. Nevertheless, President Culbertson said today a new building will be erected immediately.

INDIANAPOLIS HANDWRITING
EXPERT TESTIFIES

Los Angeles, Dec. 2.—Testifying as a handwriting expert Herbert J. Wood, head paying teller of an Indianapolis bank, asserted on the witness stand today that Mathew A. Schmidt, now on trial for the murder of Charles Hagerty, one of the twenty victims of the Times bomb explosion five years ago, was the man who wrote the order for the high explosive used by James B. McNamara to blow up the building.

ENGLAND INTENDS TO
REQUISITION VESSELS

Washington, Dec. 2.—An official report of the intention of the British government to requisition without the formality of prize court proceedings vessels of the American Trans-Atlantic company which fly the American flag reached the state department late today in a dispatch from Consul General Young at Halifax.

DISCUSS SHIPPING BILL.

Washington, Dec. 2.—The new administration shipping bill, which would create a board to control deep water traffic and provide for construction of merchant vessels designed for use as naval auxiliaries was the subject of the conference tonight attended by Secretaries McAdoo and Redfield, Senator Fletcher and Representative Alexander.

C. B. & Q. TRAINMEN INJURED
IN EXPLOSION OF ENGINE

H. P. Young Expects to Return to His Home in Beardstown Today—Neither Engineer Nor Fireman Hurt Seriously.

H. P. ("Brigham") Young of Beardstown, who was scalded about the limbs when the crowsheet of the locomotive on which he was engineer blew out Thursday forenoon, was resting well last night in a Centralia hospital and expects to return today to his home. Mr. Patten, the fireman, who was injured in a similar manner, will be taken today to his home in Centralia. The injuries of neither man are serious, despite reports which were spread Thursday to the effect that the fireman had been killed.

The men were bringing a freight north out of Centralia and were at Hookdale, a town twenty-three miles north of the place first named, when the accident occurred. When warning of the explosion was given by the first escape of steam, the head brakeman, who was riding in the cab, swung to the ground and escaped injury. Engineer Young threw on the brakes before he made a move to escape and after reversing the engine, he and the fireman attempted to make their getaway by climbing over the coal in the tender. The crowsheet gave way before they were clear of the cab but they were far enough away to avoid the full force of the steam. The train was moving too rapidly to permit them jumping with safety to the ground and they chose the mode of egress mentioned rather than take the risk of a broken limb as did the brakeman.

COMMITTEE ON SUPPLY.

The members of State Street church have chosen the committee on supply, to pass upon various candidates for the pastorate of the church. The committee includes the following, Mrs. W. W. H. King and C. H. Russell, representing the congregation; T. M. Tomlinson, the session; L. O. Vaught, the trustees and John B. Siebert, the deacons.

JITNEY COMPETITION

CAUSES BIG LOSS
Olympia, Wash., Dec. 2.—Traction lines in Seattle, Tacoma and Bellingham in their annual reports to the state public service commission say that operation of "jitney buses" resulted in a loss during the year of 11,350,000 fares to the companies, 9,000,000 fares having been diverted in Seattle.

TEMPLE ENCAMPMENT ANNIVERSARY IS FITTINGLY OBSERVED

Organization Has Had Great Growth in Two Years Time—Excellent Program Provided.

The second anniversary of Temple Encampment No. 19, I. O. O. F., was observed Thursday night. A class of eight candidates was given the patriarchal degree. Following this impressive ceremonial came a banquet which was planned and served by wives of patriarchs. With J. Marshall Miller as the toastmaster a brief and informal program was carried out after the banquet. Temple encampment has already indicated is now but two years old and during that time has had a growth which comes to the average lodge only after a much longer period of time. The wives of the members after the temple had petitioned the grand lodge for authority, organized an auxiliary and this fact was last night the occasion of a great deal of favorable comment and hope was expressed that when the sovereign grand lodge meets next September that the constitution and by-laws may be so amended that the auxiliary department will become a definite part of the Temple work, so that the women may be permitted to enjoy many of the privileges that have in the past been accorded only to the patriarchs.

The banquet which had been prepared by the ladies was excellently served and at the conclusion E. C. Brazel as chairman of the entertainment committee introduced J. Marshall Miller to serve as toastmaster. He was a fortunate choice and introduced each of the speakers in a very appropriate way. Among those who made brief addresses were W. C. Howe, Mrs. Thomas Martin, Dr. Wesner of Murrayville, W. J. Brown of Chapin, Mrs. George Siegfried, John K. Long, Carl Weber and W. E. Boston. The candidates who took the work were John E. Pires, John Simmons, P. E. Cherry, Samuel Hunt, R. C. Deaton, W. J. Olroyd, McClelland Sheppard and Alex H. Wyatt. The committee of entertainment included E. C. Brazel, J. Marshall Miller, P. G. Stein, F. M. Brewer and W. H. Day. The toastmaster voiced the feeling of all those present when he said that the occasion would long remain a fragrant memory.

BLUFFS MAKING PLANS TO INSTALL WATER WORK SYSTEM

Pipe Lines are Being Located and Other Preliminary Work Being Arranged.

Messrs. W. A. and H. L. Fuller of the firm of Fuller, Coult & Co., of St. Louis are here this week planning and making a preliminary survey for the location of a reservoir and well for a Water Plant for Bluffs, says the Bluffs Times. They are also locating the pipe lines and doing other preliminary work.

It was decided by the Village Board at a recent meeting that the preliminary work should be done at once and the question submitted to the people by spring, so as to get the matter underway.

There is no doubt that water works would be a wonderful thing for the Village, and the price of the entire system could have been saved two years ago in the big fire. Had there been water works and hose this fire could easily have been checked with out very little loss.

There is no town in the state so admirably situated for a good cheap water works. The reservoir placed upon the hills north east of town would be higher than any water tower in this section and would give all the force needed for fire protection. Then we have good water that can be secured easily and in abundance. The only thing necessary is the push to go behind the project.

It will not cost a great deal to install water works and if the people are in earnest and will back the board we will have them.

CARD OF THANKS.

PASSAVANT CAMPAIGN IS FORMALLY BEGUN

WORKERS GATHERED ABOUT BANQUET BOARD TO DISCUSS PLANS.

Speakers Emphasize Need There Exist for Large Hospital Facilities—"I Will Spirit" Prevailed and Gave Earnest That Huge Task Will not be Difficult of Accomplishment.

"We can do it and we will" was the slogan which appeared upon a great banner stretched across the great assembly room at Grace church where the banquet was held last night to mark the opening of the Passavant hospital campaign to secure \$100,000. From the spirit which prevailed it was evident that everyone present had read the words upon the streamer and thoroly believed them. The generals, the colonels, the captains and the hundreds of privates who are to make the vision of ample funds for the hospital a reality were all there. John J. Reeve presided and the excellent and varied musical program included a solo by Mrs. Hartmann, a violin solo by Mr. McClelland, and a vocal solo by Miss Lazelle. Addresses were made by Hon. W. E. Hubbard of Carrollton, Mrs. Miller Weir, Mayor H. J. Rodgers, Rev. H. L. Fritschel of Milwaukee and Mr. Davies, who is directing the campaign.

Banquet Well Served.

The committee in selecting Grace church for the campaign headquarters and for the place where the suppers are to be served, was wisely guided. The room will seat three hundred people comfortably at the tables and the arrangements are such that prompt and excellent service can be given. That the women of Grace church are experienced in such affairs was clearly evidenced last night. It is no small undertaking to serve a supper to so many banqueters, but it was done faultlessly last night and the same rule will probably apply during the other nine days of the campaign. The teams assembled according to team membership, each captain being at the head of the table with those who are to serve on the team grouped about. On the east wall of the room the entire space is occupied by a board where the record of each day's work will be displayed. The teams are numbered and spaces are reserved for the report of each team. Cards were distributed last night and active work of canvassing will begin today. The plan is for the captains and team members to appear at Grace church for supper each evening at 6:30 o'clock, when reports will be called for and the record of the day's work will be placed upon the bulletin board. There will not be formal programs as these are to be business sessions and those who attend will be able to return to their homes about 8 o'clock. Mayor Rodgers in his remarks last night stated that the terms by which Mr. Nichols donated \$15,000 for the erection of a nurses' home had been so changed that the gift is now absolutely without any annuity reservation and thus the \$15,000 can properly be credited to the \$100,000 campaign fund, leaving the sum of \$85,000 still to be raised.

Before the serving of the supper began, all joined in singing, "America" and then grace was said by Rev. Mr. Madden. The supper was served and then Chairman Reeve announced a vocal solo by Mrs. Hartmann. Her accompanist was Miss Obermeyer. Mr. Reeve in introducing each speaker occupied very little time but he again proved as he has done on frequent occasions before that he can serve admirably as a toastmaster. His remarks and stories while brief, were very apt and he kept the rather lengthy program moving in such a way that no one had an opportunity for weariness.

A Monument to Humanity.

Hon. W. E. Hubbard began his remarks by quoting a definition of appendicitis that he had heard recently. It was that an operation for appendicitis means that a surgeon opens a man's body and removes his purse. He said that he didn't know that this definition would apply, but that he thought a doctor rather than a member of the legislature would be better fitted for an address on such an occasion. He referred to the benefit which the hospital has conferred not only upon this community but upon the territory surrounding. He said that it must properly be considered a monument to the spirit of humanity. The speaker referred to the great development along all lines which has come during recent years, and said that this was particularly true of the science of surgery and medicine. He declared while a great work is being done in the present building, that a visit there will convince one that it is practically obsolete and he expressed the fear that if the fire marshal should ever come that a great expense would be found necessary in order to conform to legal requirements. The speaker gave expressions to the optimistic view that the world is constantly growing better and that a broader humanity prevails now than ever before. He applied this even to the present war and said that when this war of leaders and rulers is over, that it will be found that the people are closer together than ever before. He complimented Jacksonville for the splendid spirit and conditions which prevail here and said that the task of raising the proposed fund was not large when it was borne in mind the number of people to whom appeal could be made.

Women Enthusiastic in Work.
Next Mr. McClelland gave a violin solo, and Mrs. Miller Weir was introduced as chairman of the women's committee. Mrs. Weir said that when Mr. Reeve told her over the phone that she would be expected to make some sort of an address that she was appalled by the thought, but that she had determined to occupy only sixty seconds of the thirty

minutes that she said might be hers. Mrs. Weir referred to the ready response with which women had answered the appeal to join in the movement. "All that I have to say has really been said in the conversations that we women have had during the past two weeks as we have planned for this organized campaign, and now I can only add in the words of Mr. Hanna, that the time for exhortation is past and now is the time for work. Remembering the spirit with which the women have undertaken their part in this project I feel confident in saying that the work will be cheerfully and vigorously undertaken and accomplished."

Large Territory to Serve.

Mayor Rodgers said he would confess that he hadn't quite realized the various duties which properly belonged to the chairmanship that he had taken but said the people must realize that it was "their work" and responsibility is upon each individual. To his mind the task of raising the fund didn't seem stupendous when it was remembered that there are 60,000 people in the territory from which the hospital might legitimately expect to draw support, and that if 5,000 people out of this number could be secured to give an average of \$20 apiece, that the sum would be raised. The terms of the pledges are that a period of twenty months will be allowed for payment, so this really means an average of \$1 a month for twenty months for 5,000 people. Mr. Rodgers then explained that the money contributed by Mr. Nichols for the building of the nurses' home can be credited on the \$100,000 fund. He said that it must be remembered that the hospital is for the patients and not for the doctors. The records the past year show that fully 50 per cent of the patients have come from territory out-

Some Topics of the Farm

SUNSHINE A GERMICIDE.

Tests Show That Germs of Disease Can Not Survive When Exposed to the Sun.

Sunshine is an amazingly potent germicide for the farm housekeeper and in the dairy and stables. The practice of exposing cooking and other utensils used in connection with food to direct sunlight makes use of this fact, altho comparatively few appreciate exactly the work done by the sun in this regard. Probably only those who are actually with tests which have actually been made realize how quickly sunshine kills disease germs exposed to it. Hence the following tests may be generally instructive and interesting.

A pasty, creamy mass of tuberculous material, which was proved to contain uncountable numbers of virulent tubercle bacilli, was obtained from a tuberculous cow and spread in thin smoots translucent layers on sheets of glass, pieces of wood, and strips of muslin. Some of the sheets of glass, pieces of wood, and strips of muslin were then placed outdoors on a moderately warm, clear, calm day where the sun could shine on them, and an equal number were placed in a dark room. After 15 minutes exposure to the sun, the tuberculous material on the glass, wood and muslin still contained large numbers of living, virulent tubercle bacilli, which were proved to be fully capable of causing tuberculosis, but after 30 minutes exposure to the sun no living tubercle bacilli could be found; every test that could be made proved that they were all dead.

Similar tests with quite large aqueous masses of tuberculous material, larger and denser than any tuberculous person is apt to expectorate, proved that the bacilli in such masses on glass are still alive after 4, but entirely dead in less than 8 hours, and still alive in the material on wood and muslin after 8, but dead in less than 16 hours.

The tuberculous material in thin layers on glass, wood, and muslin, kept in a dark room, was proved to contain fully virulent, living tubercle bacilli after 30 days. The contrast is remarkable, tubercle bacilli of the same kind, on the same kind of material, dying in a smaller number of minutes in the sunshine than the number of days they remained alive in a dark room.

As most varieties of disease germs are more easily destroyed by germicides than tubercle bacilli, and as tubercle bacilli, in the thin layers in which they are likely to adhere to clothing, blankets, rugs, draperies, furniture, walls, floors, etc., are killed by the rays of sun in less than half an hour, tho they remain alive in dark places a month and longer, it is reasonable to draw the following conclusions:

(a) As a general sanitary principle it is desirable that all dwellings, stables, etc., should be so constructed that an abundance of sunshine can reach their interiors.

(b) As a general protective measure against disease germs, it is an excellent practice to expose utensils for handling milk, and milk cans after they have been cleaned, to direct sunlight, and to hang or spread wearing apparel, blankets, bedding, rugs, horse blankets, etc., periodically where the sun can shine on all parts of them.

Fall or Spring Plowing?

In discussing the question of which is better, fall or spring plowing, Dr. Cyril G. Hopkins in *The Farmers' Review*, says that most experienced farmers could describe the seasonal conditions under which fall plowing would be best, and also another set of conditions which would favor spring plowing; but some of these conditions no man knows enough to forecast. Sometimes fall-plowed ground must be re-plowed in the spring, and at other times ground not fall-plowed is not plowed at all.

If the clover has made a good growth during the summer and early fall, if the soil is quite well supplied with organic matter; if the land has been in meadow or pasture for several years; if it is desired to plow deeper than the land has been plowed before; if the winter and spring weather is to be dry; if the ground is in good condition for plowing; if the farmers has his other work well in hand—then some fall plowing may well be done; while, under other conditions more or less opposed to these, spring plowing is advisable.

Whether the plowing should be early or late in the fall or spring also depends upon many factors. Probably the one that most commonly, and perhaps most advantageously, settles the matter is the best utilization or distribution of the farm labor. There is reason to hope, however, that long-continued investigation may furnish information that will have some value as a general guide, altho the farmer's own judgment and his knowledge of local conditions must largely govern his practice.

In the very dry season of 1914, one of the best farmers in central Illinois produced his largest yield of corn on a field that was not cultivated in any way after the corn was planted. He expressed the following significant conclusion:

"Farming is a good deal like a game of chess. You line up in the spring every year about alike. Then the weather moves; and then you move, and you play the game as the conditions change. It is a game of skill and changes, and to win you need to know principles rather than rules."

NASBY WROTE ABOUT GOOD ROADS MANY YEARS AGO

Famous Correspondent Presented Arguments for Better Highways Which Are Heard Familiarly Now—Suggestions Based on European Travel.

That the question of good roads is by no means new is indicated from the following paragraphs. They are taken from "Nasby in Exile" or "Six Months of Travel," written by David R. Locke, whose facile pen prepared a great amount of matter for the Toledo Blade years ago. He won some renown. He won some renown also thru his letters from "Confederate Cross Roads" signed Peroleum V. Nasby.

The journey thru England, Ireland, Scotland, France, Germany, Switzerland and Belgium was taken by Mr. Locke during the six months beginning May 14, 1881, and his letters to the Blade which were reproduced in book form are most interesting and instructive, and have frequent touches of humor.

"One of the very pleasant things in Switzerland, and France, as well, is the perfect system of roads everywhere, and the care taken to shade the roads. The roadbeds are marvels of excellence, and well would it be for America could we find it in our people to pay some little attention to this important matter. Whatever else may be slighted the roads are not. In making a comparison between Swiss roadways and American, I take into consideration the fact that Switzerland is old and America new, and that the present Swiss road represents the labor of hundreds of years, while the average age of the American roads is not sixty years. Still, we might, and should, with our enterprise come nearer to continental roads than we do.

"Everywhere in Switzerland the earth on the roadway is removed to the depth of four or more feet, and pounded stone, gravel and sand are deposited in its stead, gutters on the side are carefully made; till you have to travel over a beautifully rounded way, which can never be wet, and never anything but solid and smooth. Along the entire length there are, beside the road, small piles of broken stone, and at regular distances are men with tools, whose business is to keep them clean and in perfect order. Whenever a depression, no matter how slight, appears, it is instantly filled as skillfully as a tailor puts a patch in your trousers; thus keeping them, everywhere and always, smooth, uniform and clean.

"The bridges are solid masonry, and on the edge of declivities and dangerous places are solid walls of stone. Not a point either for safety or comfort, is overlooked.

"They are rather costly to make, to begin with, and it costs something to keep them in order, but it pays, after all. Enormous loads are hauled over these smooth roads, and the wear and tear upon horses, vehicles

and harness is reduced to well nothing, to say nothing of the comfort and pleasure. Bad weather makes no difference with their inland traffic, for just as great a burden can be hauled in wet weather as in dry, nor does frost affect them.

"I would that every American farmer, in the month, say, of March, could see these roads, could view the enormous loads piled upon the enormous wagons and see with what ease they are moved. Then his mind should go back to his own country, and there should come up a recollection of the last March, when he was lashing and swearing at his poor horses, who were doing their level best to pull him, in an empty wagon, thru the rivers of mud we call roads. A Swiss horse would commit suicide were he taken to Illinois in winter or spring.

"It would pay America to imitate Switzerland in this particular. Our half-made roads should be at once abolished, and the money spread out over ten miles, which the first half obliterated should be used in making one mile of permanent road, and that mile should be extended just as fast as the people can bear the burden. The Swiss are not so fast as we are, but their work, when once done, stays. There is scarcely any section of America where material of some sort is not attainable to make better roads than the wretched apologies we have for them. Whoever makes himself the apostle of good roads in America will have many generations to rise up and call him blessed.

"Next to the perfection of the roads comes the delightful shade that covers them. This has been done, not spasmodically and at the whim of the people residing along the roads, but it is a government matter, and as much care is taken of it as of the roads. On either hand are lines of beautiful trees, forming a most delightful arch over the road, and the shade is as grateful to the horses as to the riders. A long vista of trees whose branches form an arch over the roadway is not only a comfort, but it gratifies all the senses. A Swiss tree-bordered road is one of the most delightful sights in the country.

"We cannot, of course, compel the planting of trees by the roadside, by law, but if the farmers of America could be made to understand the beauty and comfort there is in it, they would do it of their own free will and accord. New England has shaded roads, and some scattering parts of other sections, but it should be made general. It would add several per cent to the value of every farm, to say nothing of the perpetual gratification it would afford. We have the best shade trees in the world, and the cost of transplanting is comparatively nothing.

"Road making should be systematically pushed in America, and the sooner it is commenced the better."

Mrs. R. Y. Gibson, southeast of the city, and Mrs. J. H. Rea of North Dakota, were in the city Wednesday, guests of Mrs. C. H. Story.

SURVEY BY COMMISSION TELLS OF RURAL CHURCH'S FLIGHT

"Only The Third are Increasing in Membership" Says Recent Report of Canvass Made in Ohio—The Community Church Movement.

Columbus, O., Dec. 2.—One out of every nine country churches have been abandoned in recent years. Only one third are increasing in membership and two thirds have either ceased growing or are dying. Eighty-three per cent have less than 25 members; 21 per cent have less than 25; 27 per cent have between 25 and 50; and 34 per cent have between 50 and 100. Only six per cent have individual preachers, while 26 per cent share ministers with another church; 23 per cent have one third the time of a minister; 27 per cent have one fourth time; 14 per cent have one fifth time; 5 per cent have one sixth time. A large proportion of preachers receive about the same pay as a day laborer. Less than 40 per cent of the rural population are church members.

These facts, shown in an extensive rural survey of Ohio, whose results were announced today, are applicable to most states, according to officers of the Commission on Church and Country Life. Plans for scientific surveys in all states, including Illinois, to secure definite data for each locality, will be formulated at the national convention of the Commission on Church and Country Life, to be held in Columbus, Ohio, Dec. 8, 9, and 10, with President Wilson and Gifford Pinchot among the speakers.

The Ohio survey is considered the most thorough ever undertaken, but the campaign not only for surveys but also for speedy reforms to make churches community centers as well as houses of religious worship, is to be carried into every part of the country within the next year.

Here are the causes which the country church of the near future must promote in order to save itself according to a much-discussed report by President Kenyon L. Butterfield, of Massachusetts Agricultural College, ready for presentation to the Commission: Good roads, better farming, encouragement of agricultural college extension courses, community beautification, public health and recreation, temperance, better schools, Saturday half holiday for agricultural laborers, community athletics, observance of religious and patriotic holidays and home coming weeks, community planning and contentment with farm life.

The church must become the social center for the community, with its minister leading in a variety of interest, and religion thereby will become a stronger appeal, says the Butterfield report. Naturally this program is expected eventually to diminish denominational lines.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

ful manner. All is free and the request for such a donation seems reasonable and the park commissioners hope that some generous minded persons will dig up a few of the trees mentioned and bring them in. If it will not be convenient to leave them at the park they may be left at the blacksmith shop of Wm. H. Anderson, northwest corner east and East Morgan streets and the trees will be taken out to the park and planted in suitable places. If not too far away the board might send for a good number that would be rather expensive tho it would be considered if no other way to get the trees is offered.

WILLIARD WILL MEET FULTON
AT NEW ORLEANS MARCH 4

Champ's Contract Calls for \$32,500 Win, Lose or Draw—Terms Arranged With Fulton Are Not Announced.

New Orleans, La., Dec. 2.—Jess Willard will meet Fred Fulton of Rochester, Minn., in a twenty-round bout here March 4th, for the heavy weight championship of the world, according to an announcement tonight by promoters of the match.

Willard signed articles here several weeks ago to meet any white fighter the promoters might name by Dec. 10th. Efforts were made to arrange an elimination bout between Fulton and Frank Moran of Pittsburgh, but according to the promoters Moran refused to meet the Minnesota pugilist and was notified that if he did not agree by Dec. 1st, to do so the match would be given to Fulton. Fulton previously had signed articles to meet Willard in the event Moran refused the elimination bout. Willard's contract calls for \$32,500, win, lose or draw. Terms arranged with Fulton were not announced.

ILLINOIS LEADS IN
ITS GAME RESOURCES

State Has Spent \$65,000 on Hatcheries and Ponds—Commissioner Makes Review.

The work of the state fish and game commission has been recently reviewed in glowing terms by C. J. Dittmar of Freeport, chairman of the commission, who said there is no state in the union that is as active as Illinois in its efforts to conserve its fish and game resources. He represented Illinois as being the second state in the union where there is a plentiful supply of fish, which has come about thru the commission of which he is the head. The stocking of all streams of the state is bearing results beyond the expectation of the commission, who see in a few years Illinois at the head of all states in production of fish.

Work of Commission.

When the present commission entered on its duties there were but two boats in service. Today there are 65 power boats patrolling the waters of Illinois, and two larger boats, one being in service on Lake Michigan. The commission this year spent \$65,000 at its hatcheries and ponds and has distributed millions of fish to streams in every part of the state. There has been liberal distribution in northern Illinois, and which Mr. Dittmar says has been as extensive thruout the entire state.

Commission Self-Supporting.

It is a self-supporting commission showing a balance each year to be turned into the state treasury. The revenue is derived from license money and from fines imposed on those who do not observe the fish and game laws. This support means that there is a surplus after the salaries of the commissioners and deputy wardens and incidental expenses have been paid.

Fish Car Next Year.

The fish car which has been ordered constructed by the commission will be in service next year. It is being built at Paris, Ill., at an estimated cost of \$17,000. Inspection had been made of federal fish cars and the cars of other states, adapting the best ideas for the Illinois and incorporating many new features. Its equipment will be the latest for the transportation of fish, providing facilities by which fish will arrive in as good condition at the point of destination as they were when taken from the water. Large natural hatcheries are being established at Savanna, from which the commission will be able to ship a carload of fish nearly every day during the summer months.

ALLEGED SWINDLER
FIGHTS EXTRADITION

New York, Dec. 2.—George McCrea, wanted in Pittsburgh for alleged complicity in a scheme to swindle a wealthy coal land operator, Simeon M. Jones, will fight extradition to Pennsylvania, when a hearing is given on his case here tomorrow. McCrea is said in Pittsburgh to have been the "come-on" of the gang of wire-tappers and confidence men known as the McCrea-Tarbeaux-Carter group, which has cost wealthy Pittsburghers more than \$175,000, but of whom Mr. Jones in the only one who would prosecute.

McCrea, Albert A. Carter and Frank Tarbeaux were indicted in Pennsylvania on charges of grand larceny on evidence furnished Jones but were never tried, and later the prosecutor was informed that Carter and McCrea had been granted immunity for services to the state. Tarbeaux was tried in Pittsburgh and sentenced to two years in the penitentiary. Carter was arrested in St. Augustine, Fla., jumped a \$10,000 bail bond, was re-arrested in Philadelphia, where he jumped a \$6,000 bond, and was caught for third time in North Carolina. But the bird was too lively to hold, for he broke jail and escaped.

Efforts to extradite McCrea have been made by the Pittsburgh authorities for some time. So far the alleged swindler has succeeded in fighting off extradition, and his latest appeal will come up tomorrow. The swindle for which he is wanted in Pittsburgh came about thru an advertisement which the gang placed in newspapers. Simeon M. Jones, a wealthy land operator, was reached thru the advertisement, and he claims he was stung for \$20,000.

Bout Will Take Place in New York Within Six Weeks Before the Club Offering the Best Inducements.

New York, Dec. 2.—Freddie Welsh of England and Charley White of Chicago, thru their managers, signed an agreement here today to meet in a twenty-round bout within six weeks for the light-weight championship of the world.

Welsh, as the champion, and White as the challenger, agreed to meet before the club offering the best inducements, all bids for the bout to be received not later than Thursday, Dec. 16th. The pugilists agreed to weight 135 pounds at 2 o'clock on the afternoon of the contest if the affair is held in the evening or 135 pounds at 10 o'clock in case it is fought during the afternoon. Their managers each posted \$1,000 forfeit for weight and will place an additional \$1,500 each in the hands of the stake holders for appearance at the time the bout is awarded to the club offering the best inducements. The terms of the agreement are that the boxers shall meet in a contest of twenty or more rounds with a referee's decision. Bids will remain open until Dec. 16th, and the fight must be held within six weeks. The referee will be selected from a list of names mutually agreeable to the contestants and each has agreed not to appear in any other match before this bout in which a referee's decision might be given.

Here's the latest member of the "old-time jimmy-pipe" club. It's a fine likeness of John E. Each, 101 years old, of Newark, N. J. He has been a pipe smoker for 60 years. Mr. Each, who enjoys his smokes every day, gives this idea of a long life: "Smoke all you want, eat all you want, sleep all you want—and don't worry!"

P. A. is sold everywhere in tippy red bags (handy for cigarette smokers), 5c; tidy red tins, 10c; handsome pound and half-pound tin humidor—and that classy crystal-glass pound humidor with the sponge-moistener top that keeps P. A. bang up.

"P. A." spells tobacco
all over the world

Men of all tastes take to Prince Albert pipe and cigarette tobacco like it just about answers all questions! And it does! Quicker you get on speaking terms with this national joy smoke the sooner you'll get a whole lot off your mind. Because, it just hands you more fun than you ever got out of a pipe or makin's cigarette before. The patented process fixes that—and removes the bite and parch.

PRINCE
ALBERT

the national joy smoke

is the one brand of tobacco you can take liberties with, firing away 24-hours straight without a tongue-kick! You get the

listen of that.

Cut out lamenting for that old jimmy pipe stored away in the rafters; stop fretting about how you'd

like to roll 'em, but you dassn't. Men, you can lay your last cent that you'll be top-notch-tickled if you catch the spirit of this testimony and get some P. A. and go to it! Never did anything but make smokers jimmy pipe joy's and cigarette makin's happy—and that's just what's coming to you!

Can you sit-tight and get that P. A. aroma from somebody else's friendly old pipe or rolled cigarette? Can you pass up pleasure that's due you, and coming to you quick as you jump that fence into the Prince Albert pasture? Come on out and be a regular fellow who's game to take a chance for what ails his smokeappetite division!

WEAK AND TIRED WOMAN

Tells How Vinol Made Her Strong. Jacksonville women who are weak, rundown and suffer from the consequent effects of such a condition, will be interested in Mrs. Odell's letter. She says:

"I am a farmer's wife and was all run-down, weak, tired and suffered from indigestion, and sometimes it seemed as though I could not keep around and do my housework. I had taken many medicines without benefit. One day I saw Vinol advertised, and made up my mind to try it. I have taken four bottles and have gained seven pounds in weight, am much stronger, and feel many years younger than before."—Sarah Odell, Lockport, N. Y.

The reason Vinol builds up weak, run-down women so quickly is because it contains a delicious combination of the three most successful tonics, peptonate of iron to enrich and revitalize the blood, the strength-creating, body-building elements of fresh cod's livers with oil, and beef peptone.

We want to say to every weak, run-down, overworked woman in Jacksonville that we will return your money if Vinol fails to help you as it did Mrs. Odell.

Here's Nature's Own
Remedy For Catarrh

Hymel Relieves Catarrh Without the Use of Dangerous Drugs.

Not until Hymel was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hymel is an oil and its air is breathed thru a small inhaler furnished with it for a few minutes four times a day, and during that time every particle of this Hymel laden air taken into the air passages and lungs is impregnated with a powerful germ killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tract or bring on some other disease; and never make a permanent cure of catarrh. But when the air of Hymel penetrates to the innermost cells of the lungs and enters the blood with the oxygen it not only kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hymel for several weeks treatment.

Coover & Shreve have so much faith in the merit of Hymel that they agree to return the money to any purchaser who is not thoroughly satisfied.—Adv.

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons From Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative", and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle. Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs", then look and see that it is made by the California Fig Syrup Co.—Adv.

REPRESENTATIVE HUBBARD THINKS SPECIAL SESSION CERTAIN

Gov. Dunne Likely to Yield to Demands Made for Call—Work of Efficiency Committee is Important—The Growing State Expenses.

Hon. W. E. Hubbard of Carrollton came to the city yesterday to visit his sister, Mrs. C. E. Williamson, and accepted the invitation of John J. Reeve to remain last night for the Passavant hospital campaign opening banquet. Mr. Hubbard is now serving his second term as a member of the house and also he has been a member of the general assembly for but a comparatively short period, he has taken a prominent part in the two assemblies in which he has had membership. Mr. Hubbard is the Democratic dry leader in the house and during the contest for speakership early in the present year came very near election several times. Mr. Hubbard's record in the legislature has been such as to command the approval of his constituents and he is credited with having a great deal of home support that is outside of his own party. He is past grand master of Odd Fellows and thus has a wide acquaintance throughout Illinois.

Mr. Hubbard said yesterday that the reason for adjournment until Feb. 23 was because of a disagreement among Chicago members about a proposed new law which will affect only Chicago. The measure proposed will give authority to boards of local improvements for the general expenses of the boards. The law now in effect it is claimed by various Chicago residents does not permit a sufficient additional amount to the estimated cost to pay the ordinary running expenses. It is said that the local improvement board expenses in Chicago amount to about \$800,000 annually.

Special Session Almost Certain. Mr. Hubbard in conversation expressed the opinion that Gov. Dunne will yield to the pressure which has been brought to bear on him and call a special session of the legislature to convene sometime in January. There has been a general understanding that the earlier call for a special session would make possible a provision to make good to stockmen losses sustained on account of the enforcement of the foot and mouth disease regulations. When the call was issued this was not included and immediately strong influences were brought to bear on the governor to have this matter provided at a special session. This is only one of a number of important matters which will be considered if the session is called. It will be possible to have this session earlier than the session which is to reconvene in February, as the business to be transacted under the call will in no way conflict with the business which must be considered at the adjourned session.

It will be remembered that during the Deenen administration two special sessions were on at the same time. Occasionally one session would be convened in the morning and the other in the afternoon, and when members attended they would have to consult a large placard which was posted in the assembly hall to tell which session was doing business.

Efficiency Committee Needed. Mr. Hubbard believes that one of the most important matters which will be considered at any special session will be to make provision for the continuance of the efficiency committee. This committee has already made a report which includes some very practical suggestions for reducing the expenses of the state and increasing the efficiency of the various departments. If their proposals were followed out, the number of state commissions would be vastly reduced, mainly thru the consolidation of various departments. The number of commissions has grown very rapidly during recent years and this has been one cause of the great increase in appropriations at each assembly. The number of commissions is now nearly one hundred. Mr. Hubbard says that the report which the committee has formulated upon the work it has been possible to do this far is of a practical kind and he believes provision should be made for further investigations and report.

Increased Appropriations. Asked as to the cause of the greatly increased appropriations from year to year, Mr. Hubbard said that this was partly due to the same reasons that have increased individual expenses and partially because of the extravagant methods of doing business and further because of the increased provisions which are being made for the care of the wards of the state. The new epileptic colony and the new state hospital for the insane at Alton, will add to the fund expended for this purpose. The state highway commission is doing an excellent work but must necessarily expend a large amount of money. The utilities commission with its great powers and numerous employees is also expending large sums. Some changes are needed in the election laws, Mr. Hubbard believes, and he does not consider that the present primary law is all that it should be. A primary law which applied to the governor, United States senator and possibly only a few other persons would be an improvement over the present law, he thinks. He points out that as the law is now, the average man votes for a number of candidates for nomination about whom he knows absolutely nothing. Another objection is the great expense which the primary law occasions for candidates who seek state office. No man of ordinary means can be a candidate and make any extended canvass without expending a much larger sum than he can afford. In other words, the law turns the state primary into a rich man's game. As previously indicated, Mr. Hubbard can properly be ranked among the prominent members of the legislature and his services thus far have been of quite a useful kind.

THURSDAY WAS QUIET DAY IN CIRCUIT COURT

After several extremely busy days Judge Jones spent a quiet day in the circuit court Thursday. There were 10 jury cases and the jury was dismissed for the remainder of the week. Judge Jones heard a number of arguments and entered a number of orders. In the case of Earl Lewis against the La Crosse Lumber Co., he sustained the demurrer of the plaintiff, having taken the case under advisement until Thursday. The following orders were entered.

Law. Earl Lewis vs La Crosse Lumber Co., a corporation, case. Demurrer sustained and rule on defendants to plead further by Friday noon next.

Henry C. Woltman vs J. W. Miller et al, assumpsit. Cause called for trial. Suit on two promissory notes. Clerk ordered to assess. Clerk's report of assessment of plaintiff's damages in the sum of \$1,822.25 made and approved. Judgment in favor of plaintiff and against defendants for \$1,822.25 and costs.

Chancery. Amos Henderson vs William Stott et al, bill for foreclosure. Order of distribution approved.

Henrietta Lyman vs Richard McGowan et al. All defendants called and make default and cause referred to master.

James W. Allen vs Rose E. Allen, bill for divorce. Bill for temporary alimony and solicitor's fee. Cause heard on petition. Complaint ordered to pay the sum of \$25 for solicitor's fee for defendant and \$10 temporary alimony. Same paid to defendant's solicitor in open court.

NOTICE TO CONTRACTORS. Sealed proposals for the erection of a library building for the Public Library Board of the City of Griggsville, Illinois, will be received by the Secretary of the Board, Mr. John S. Feinley, Griggsville, Illinois, until Monday, Dec. 6, 1915, at 2 o'clock, P. M.

Further requirements may be seen from the plans and specifications which may be had of the Architects, 317 Unity Building, Springfield, Illinois, or from the Secretary, Griggsville, Illinois.

The right is reserved to reject any and all proposals.

By order of the Library Board, Ballard and Ballard, Architects.

WON FIRST PRIZE.

Some weeks ago the Adams Express company sent a car of Illinois poultry to the Panama exposition at San Francisco. In this car was a White Holland turkey from the Southern Slope farm southeast of the city, conducted by Thomas M. Stubblefield. The turkey arrived home a few days ago from its long journey and Thursday Mr. Stubblefield received a blue ribbon and a cash prize from the exposition officials telling him he had won first premium. When it is considered that birds from all over the country competed it is a big honor and shows that Mr. Stubblefield raises the best kind of turkeys. The bird is a three year old hen and has won prizes at the state poultry convention exhibit and at the state fair.

THE FORGIVENESS OF WOMAN

Carl Branom was arrested yesterday on a warrant charging him with wife abandonment. He was taken before Justice Dyer and placed under bond in the sum of \$100 for a hearing next Tuesday. After these preliminaries, however, his wife relented and agreed to try to live with him again. She also paid the costs of the suit.

Rev. B. P. Johnson of Ashland was in the city yesterday visiting his sister, Mrs. T. F. Curtis. He has recently returned from a visit of three weeks in California.

STREET CAR AND BAGGAGE WAGON COLLIDE ON WEST STATE

Trunks Were Scattered Along Route of Runaway by Team Belonging to J. W. Woods.

Thursday afternoon a street car hit the baggage wagon of J. W. Woods in West State street in front of the Dunlap hotel and knocked the horses down and also knocked the front wheels from under the wagon bed. After the accident the horses regained their feet and with the tongue and the front wheels still hitched to them ran east in West State street toward the square. They turned north at the square and continued on in the direction of the barn. One of the horses fell in front of the clothing store of S. S. Knoles on the north side of the square, was caught and taken to the barn. The horse that fell suffered an injury but it is not thought that it is serious.

No one seems to know just how the accident occurred. Ed Buck was driving the wagon and had backed it up to the curbing at the east side of the Dunlap hotel and in company with Thomas Jordan, a porter, was loading trunks. According to Buck's story the horses suddenly turned around directly in front of an east bound street car.

The car struck the wagon and horses. The horses were knocked down and the front wheels torn from the bed of the wagon. There were about a half dozen trunks on the wagon and these were scattered along the street. When the horses regained their feet they started to run. It was fortunate that no one was struck as West State street was crowded with traffic at the time of the accident.

Some glass was broken in the front of the street car. An electric car standing in front of the Hunton building was struck and a spoke broken in the rear right wheel. There seems to be no one to blame for the accident, as so far as can be ascertained the driver of the wagon had his horses turned around out of the way and they suddenly took a notion to start and turning around got right on the track and directly in front of the approaching car.

BURR NOW GETS BREATH EASIER

Springfield Man Suffered Much From Bad Case of Catarrh.

TANLAC RELIEVED HIM.

After suffering for years from a bad and finding no relief from various treatments, some persons apparently resign themselves to their fate and make no further efforts to find their way back to health. Frederick Burr, who is employed at 108 North Glenwood, Springfield, Ill., had almost reached that state when his friends persuaded him to try Tanlac, the "Master Medicine" now being introduced in this city. Mr. Burr in discussing the benefits he had derived from the use of Tanlac, said:

"Before I began taking Tanlac, I had suffered intensely with catarrh for a number of years. It was difficult for me to breathe when I was asleep and when I would get up in the morning my nose would be all closed up. I tried several remedies but nothing seemed to do me any permanent good. I became nervous, rundown because of the little rest which I was getting and had about given up hope of obtaining relief. I heard about Tanlac and the good it was doing so decided to try a bottle. "I am glad to say my catarrh is nearly gone. My nose does not close up like it used to, and I can breathe much easier. I get a good rest every night which makes me feel like a new man. I've told a great many of my friends how much good Tanlac did me but I want them all to know about it, and I am glad to say this publicly because they may benefit as much as I have if they are in bad health."

Tanlac, the "Master Medicine" is now being sold in Jacksonville at the drug store of Coover & Shreve.

RALLY SUNDAY AFTERNOON.

The Sunday school rally announced for last Sunday at Alexander M. E. church and indications are that the postponement of one week will in no wise detract from attendance. The program will continue thru the regular hour for the preaching service.

Sunday evening Rev. Mr. Lehman will give a stereopticon lecture at 7:30 o'clock.

Dr. Coombs of Carmi was a visitor in the city Thursday, accompanying a patient to a local hospital.

ENGAGEMENT IS ANNOUNCED OF PROMINENT WINCHESTER COUPLE

Marriage of Miss Lucille North and Mr. Fred Neat to Take Place Soon—Bride Elect Former I. W. C. Student—Other Scott County News.

Miss Louise Frost delightfully entertained fourteen friends at a sewing Thursday afternoon in honor of Miss Lucille North whose engagement to Fred Neat was then made known. The announcement was made by releasing from a silk bag a Maltese kitten with a pink ribbon tied around its neck which was attached to the engagement ring and two hearts, bearing the names of the young people. Delicate refreshments were served and when the wedding cake was cut much amusement was afforded, Miss North, herself receiving the ring, Miss Lillian Sibert the coin and Miss Frost the pen.

Both Miss North and Mr. Neat belong to prominent Scott county families and both will receive words of hearty congratulation in large number. Miss North is a former student of Illinois Woman's college. The wedding will take place in the near future.

The Rev. E. A. Junkins of Springfield will preach at services in the afternoon and evening next Sunday at the Presbyterian church.

Born, Thursday forenoon to Mr. and Mrs. John Trahey, a daughter, Edward Balsley returned Thursday from a trip to St. Louis.

Miss Florence Boyd of Barry arrived Thursday for a visit at the home of Mr. and Mrs. Frank Ruark. Mr. and Mrs. Robert Woodall left this morning for a visit in St. Louis.

Mrs. P. D. Smith is confined by illness to her home.

Miss Elsie Edmondson is about again after an illness of several days. The meeting of the Household Science club held Wednesday afternoon at the home of Mrs. David Hainsfurther, was an interesting one. After the regular program a demonstration was given of the preparation of baked chicken and hot biscuits by electric range.

RUSSIAN FACES DEATH CHAIR

Columbus, O., Dec. 2.—Peter Scribner, the "silent man" of the Ohio Penitentiary, faces electrocution at the state penitentiary tomorrow morning, for the murder of Detective Kaiser Bartel at Toledo last January. For six months he has barely spoken, and the few words were curses, uttered in the Russian tongue. Scribner was given a reprieve of three months, to allow a review of his case, and unless another stay of execution is ordered, the electrocution will take place tomorrow.

Scribner's case is pathetic. He came from Russia only a year ago, and was a laborer there, and when he found he had a rival, he shot and wounded him in a rage. When the officer came to arrest him, Scribner killed him. The Russian has shown no interest in his fate, and the sheriff thinks he will welcome the end of his mental agony.

KIDDIES' PETS EXHIBITION AT THE FAIR.

San Francisco, Dec. 2.—"Every child should have mud pies, grass hoppers, water bugs, tadpoles, frogs, mud turtles, elder berries, wild strawberries, acorns, chestnuts, trees to climb, brooks to wade in, water lilies, woodchucks, bats, bees, and snakes, huckleberries and hornets; and any child who has been deprived of these has been deprived of the best part of his education," writes Luther Burbank, the famous naturalist. To encourage the children of the Pacific coast along these lines the San Francisco exposition is today holding an exhibition of children's pets. From cats and dogs to snakes, lizards and turtles, the pets of thousands of boys and girls will be shown and their tricks and training will be demonstrated by their proud masters will compete for the many prizes.

ONE EYED TEACHER CANNOT DISCIPLINE, SAY PARENTS

High School Principle Attached in Communication From Citizens.

Hackensack, N. J., (Special).—Dr. Walter G. Davis, who for the last five years has been high school principal in Overpeck township, village of Ridgefield Park, has been attacked in a communication sent to the board of education by seven citizens who demand his dismissal on charges involving inefficiency, incapacity, conduct unbecoming a teacher, and physical disability. Here are some of the offenses alleged against him: He has only one eye, and hence cannot see everything that is going on in the schoolroom.

He has appeared before mixed classes in his shirt sleeves and has frequently been untidy and unkempt in his personal appearance.

He frequently mispronounces words, uses bad grammar, and has failed to keep his training abreast of pedagogical progress.

He lacks tact and sound judgment.

He has attacked the board of education in a public speech, and fomented quarrels between the high school teachers and the board of education.

He marks his examination papers too high, he fails to maintain discipline, and he has not organized the high school satisfactorily.

Two years ago the board of education tried to demote Davis to the position of a lower grade teacher, but he carried his case to the state commissioner of education, the state board of education, and finally to the state Supreme court, which left him as principal of the school.

"QUEEN LIL" IS 77 YEARS OLD TODAY.

Honolulu, H. T., Dec. 2.—Former Queen Liliuokalani of Hawaii is celebrating her 77th birthday today. Although the days of her royalty are now far in the past, she is the leading figure among the natives, and exerts great influence for their betterment. She has selected her tribute to the future mistress of the White House and it is now on its way to Washington. The wedding gift is a rare Hawaiian scarf, and the ex-queen modestly sent it as a tribute from the Daughters of Hawaii. Queen Liliuokalani is a direct descendant of Kamahameha, who formed the native government of the Islands long ago. She came into power in 1891, but her attempts to restore an absolute monarchy led to her dethronement in the following year. She then went to the United States and did not return to her native land until 1898 when the islands were annexed to Uncle Sam's dominions.

JURY HOLDS INQUEST OVER BODY OF E. H. HOWARD

Chicago & Alton Brakeman Meets Death While in Discharge of His Duties at Pearl Says Verdict.

An inquest was held at the court house Thursday over the body of E. H. Howard, a Chicago and Alton brakeman, who was injured at Pearl Wednesday and died at Passavant hospital early Thursday morning. The remains were removed to the undertaking parlors of J. G. Reynolds and prepared for burial. Coroner Wright was notified and empaneled a jury and held an inquest. The only testimony taken before the jury was that of Dr. Carl E. Black, who was called and performed the operation and dressed the injury. Howard's left arm was torn off and he lost so much blood that death resulted. Howard was twenty-three years of age and was a married man. He resided at Faber, Mo., and the remains were sent there for interment.

The jury in the case was composed of Frank Bahan, foreman, Charles H. Fanning, L. B. Haynes, Joseph Megowan, J. W. Melton and J. W. Priest, clerk. The verdict was as follows: "We the jury sworn to inquire into the death of E. H. Howard on oath do find that he came to his death from injuries received in a railroad accident which occurred at Pearl, Ill., on the afternoon of Wednesday, Dec. 1, 1915, while said E. H. Howard, was in the regular discharge of his duties as brakeman for the Chicago & Alton railroad company."

"Who Said Lemon Pie?"

—Try This

Five eggs, 1 1/4 cups sugar, 1 cup water, 2 tablespoonsful corn starch, 1 tablespoonful butter, 2 small Sunkist Lemons. Beat all the yolks and 1 white till very smooth; add the grated peel of 1 lemon and the sugar; beat well; stir in the corn starch, add the lemon juice, butter, and lastly the water. Cook, stirring constantly. Enough for two pies. Line the pie pan with rich paste and bake. Prick the blisters, and when done fill with above mixture and cover with a meringue made of 4 whites well beaten and 4 tablespoonsful of powdered sugar. Return to oven and brown slightly.

PASSAVANT CAMPAIGN IS FORMALLY BEGUN

(Continued from page four.)

side of Morgan county. The hospital has an ample field for work. Outside of Jacksonville there is no other institution of the kind nearer than Springfield on the east, Quincy on the west, Bloomington on the north and Alton on the south.

Miss Lazelle's solo came next, with Mr. Stearns as the accompanist, and then Chairman Reeve introduced Rev. H. L. Fritschel of Milwaukee, a director of Passavant institutions, who came to Jacksonville to represent the institutions at this time.

Hospital History.

Mr. Fritschel said in part, "While our thoughts now are naturally directed largely toward the future yet we can gain some inspiration by thinking of the past. It was forty years ago that this institution was opened by Dr. Passavant and Sister Louisa Martena was placed in charge. To my mind the history of the institution naturally falls into three chapters. The first might be termed from 1875 to 1893, when excellent work was done under the direction of Sister Louisa and Sister Caroline, whom many of you will remember with gratitude. Dr. Passavant first came here thru the solicitation of Mrs. Ayers for the purpose of opening an orphanage. Later it developed that this was not needed and the institution became a hospital. It is a notable fact that Dr. Passavant established the first Protestant hospital in the United States in 1849. It is a notable fact too that the sister who first came to this hospital was the first deaconess in America.

"Many have contributed largely of time and money to this institution, but I want to mention particularly the debt the hospital owes to Dr. Prince, to Dr. King, to John R. Loar and to S. W. Nichols. These men stood by the institution from the very beginning. The second chapter of the institution's history ran to about 1904, and then began the third chapter when it was found no longer advisable to have the institution in charge of deaconesses. We are now ready to turn over this hospital to you, feeling full confidence that you are equal to the task and that you will speedily secure the funds to modernize this institution in the way that it should be. You need the hospital here. There are 5,428 benevolent institutions in the United States and the figures show that each year five and a half million people take refuge in them. On any one day you can find an average of 412,500 people in them.

Requisites for Service.

"In Illinois there are 162 hospitals and dispensaries, which care for an average of 7,000 people daily. Your hospital has done and is doing a great work. Some of the equipment is more modern than one sees in many hospitals but a still better home is deserved and will accomplish a work which the present institution cannot accomplish. A hospital to be conducted in accordance with our ideals must have its management characterized by the Christ spirit, for we read that Christ had compassion upon suffering. Secondly such an institution must not be conducted for the profit of the physicians or of anyone connected with its administration. In the past none of the officials of our organization have received one dollar from this hospital other than traveling expenses and the deaconesses who served received but \$125 a year. The third point upon which we dwell is that a hospital must be open to all reputable physicians. We are ready to turn over this property to you and believe that you are capable to accept the trust and to undertake and accomplish a still greater and more noble work."

Ready for the Work.

Mr. Davies, manager of the campaign, was the last speaker. He said there was a big thing to be done and the people there were going to do it and no mistake. In sending out cards and working over directories some 16,000 names had been reached in this and other counties and surely from so many people the needed sum would be secured. He especially urged the workers to see those they knew best and get the work a good send off at beginning. He spoke with the air of a veteran and plainly demonstrated the fact that he was the right man in the right place. He knows how to go ahead and conduct such a campaign and he has won the respect and esteem of those with whom he has come in contact.

Chairman Reeve announced him as the last speaker but caused a loud cheer by stating that the Hospital Aid society had led off with a gift of a hundred dollars and the Pine Point club with twenty. All the workers were urged to be present at 6:30 tonight. It is important that all workers attend even if they have no contributions to report. The supper and conference will not take more than an hour.

WITH THE SICK.

J. J. Mallen is rather worse again after a partial rally from the illness which prostrated him for such a long time.

George Schmalz has returned from Peoria where he went to visit his mother, Mrs. F. F. Schmalz. He said that she received visits from John Carroll of this city, Mrs. John Williams of Chicago and Mrs. Hopper of North Fayette street, Jacksonville, and the visits seemed to cheer the invalid, tho real improvement could hardly be noted.

William Franklin of Beardstown was brought yesterday to Passavant hospital to take treatment for inflammatory rheumatism.

W. B. RIMBEY IS SERIOUSLY WOUNDED

RECEIVES KNIFE CUT IN ABDOMEN AT HANDS OF MERWIN KITNER.

Murrayville Citizens Engage in Fray, Which Started over Argument in Barber Shop—Rimbeys Is Brought to Passavant Hospital.

W. B. Rimbeys of Murrayville is at Passavant hospital with a serious knife wound in the abdomen as the result of a cutting affray which took place near the barber shop of Emory Hull Thursday evening a few minutes before 7 o'clock. Mr. Rimbeys and Merwin Kitner were conversing within the barber shop when a heated argument arose and words were exchanged. Mr. Hull made it understood that the altercation would have to be continued outside. The men went out, blows were exchanged and knives drawn. Mr. Kitner received slight wounds around the face. Mr. Rimbeys received a deep cut in the abdomen, in addition to facial wounds. Making his way to a physician's office, Mr. Rimbeys was given preliminary attention by Drs. J. H. Spencer and C. E. Waters and was brought to Jacksonville on the 8:50 o'clock C. & A.

On examination at Passavant hospital it was found that the wound, tho not necessarily fatal, was of such a nature as to require the utmost care. If no peritonitis develops, Mr. Rimbeys' chances of recovery are declared good. The cut was about an inch and a half in length. The wall of the colon was severed and the knife had evidently been thrust in the full length of the blade. The injured man was attended at the hospital here by Dr. F. A. Norris. Tho resting well at an early hour this morning, it will be several days before danger is past.

Mr. Rimbeys is about thirty-five years of age and is a man of family. Both parties to the quarrel are men of good standing in the community and the report last night was the occasion of no small surprise.

FUNERALS

Sallee.

Funeral services for Mrs. Mary Baker Sallee were conducted Thursday by Rev. Myron L. Pontius, pastor of Central Christian church. Burial was made in Jacksonville cemetery and the bearers were Joseph L. Pine, Oliver Newton, George L. Stice, Lee Stice, Ralph I. Dunlap and Joseph Stice. A number of friends gathered at the cemetery where the services were held. The family feels most grateful to those who assisted them after the death of Mrs. Sallee.

Mary Baker Sallee was born at Union City, Erie county, Pennsylvania, May 6th, 1860 and with her parents, brothers and sister moved to Ottawa, Kansas in 1876.

Her father was a farmer and owned a farm south of Ottawa. Mrs. Sallee was educated in the Grammar Schools and the University of Ottawa.

At the age of eighteen she taught in a Grammar School and later learned telegraphy. Her brother Warren, who was at that time local agent for the K. P. S. & G. Co., but now holds an official position on the same system at Cape Girardeau, Mo., as General Agent, was opposed to the late accomplishment.

Mrs. Sallee was always a practical woman and her marriage to Samuel Taylor Sallee, a native of this county, at Kansas City, Mo., July 20, 1885, was quietly made in the presence of a few intimate railroad friends.

One daughter, an only child and her husband survive her. Zelle M. and Samuel Taylor Sallee.

Mrs. Sallee with her husband worked for the Western & Southern Railroads, many years, and at last drifted back to the Pacific coast, where she became ill. Doctors in Washington, Oregon and California, all gave a different diagnosis of her ailment. Few did her any good after seven years experimentation. A large fortune was spent hoping till hope died trying to keep her on earth.

As a final treatment Oak Lawn Sanitarium was resorted to. But it was too late. Her vitality was too low. She passed away on Thanksgiving Day two hours after her brother, Warren, left for Springfield, where, he, too, now lies in a hospital with pneumonia in a critical condition.

Anders.

The remains of the two year old daughter of Mr. and Mrs. Howard Anders, who died in Peoria of diphtheria were brought to the city yesterday and taken direct to Jacksonville cemetery where interment was made. Owing to the nature of the disease no services were held.

ELECTRICAL MACHINERY IN GOOD CONDITION AFTER FIRE

Expert Visits Plant at Franklin and Talk of Lights for Village Still Rife.

An expert from the Western Electric Co. was here Tuesday inspecting the electrical machinery of Chas. W. Olinger that went through the fire and said it could be made good as new for half the original cost, which was gratifying news to Mr. Olinger. An expert from the company making the big oil engine is expected any day, and as soon as Mr. Olinger has his opinion he will be in shape to take some decisive action on the renewal of our electric service.

If he can do so without too many sacrifices he hopes to deal with the McKinley interests for current and give us 24 hour service. They want to build a transmission line from Jacksonville thru Alexander to New Berlin and supply both these towns, and Mr. Olinger would be required to build a line from here to Alexander at a cost of about \$7,500.

If he is unable to trade with them, he will install his next plant in a brick building as near fireproof as possible. People should remember that supplying electric current to a community is no small affair, and such things can not be done in a day on snap judgment. Mr. Olinger is going about the renewal deliberately, with the end in view of giving us the very best service that circumstances warrant and make possible and it may be that in the end the fire will prove a blessing in disguise, as fires sometimes are where community interests are concerned.—Franklin Times.

TAYLOR, THE GROCER

MANY FINE BIRDS AT GREENE COUNTY SHOW

Morgan County Exhibit Opens Monday—L. C. Weber and George Hamilton Back From Greenfield.

James C. Weber and George Hamilton returned Thursday from Greenfield, where they attended the annual show of the Greene County Poultry association. A pleasing feature of the show was a banquet held Wednesday evening in one of the Greenfield churches which was well attended and successful in every way. Robert Shackleton of Greenfield was hostmaster.

The Greene county show was noteworthy for the quality of birds on exhibition and by many it was thought to have been the best in years. The Jacksonville men report the following winnings: J. C. and A. P. Weber, all prizes on Black Orpingtons, first pen and first cockerel, cock and hen in English class. George Hamilton, first cockerel and 2nd and 3rd pullet with Buff Orpingtons. In the Greene county show there were on exhibition more than 400 birds. D. T. Helmreich served as judge, discharging the duties of his position with his usual fairness and thoroughness.

Entries for the Morgan county show which will be held in the Cause building, South Sandy street, will close tomorrow evening and the show will open its doors to the public Monday. A special feature of the show will be Partridge Rocks and Partridge Cochins by E. E. Hyatt of White Hall, birds which have proved world winners at the Panama Pacific exposition and which will not be placed in competition here but put in display only. Morgan county officials see an outlook for a good show and no reason exists why the 1915 exhibition should not rank with the best poultry shows of recent years.

ASHES DEPOSITED IN TWO GRAVES

Dr. L. R. Day of Winchester, and Miss Gertrude Day of White Hall, were here Tuesday, bringing with them the ashes of their father, Dr. W. C. Day, who was cremated in St. Louis on the previous day. It was his request that half of his ashes be deposited in the grave of his first wife in the Oakwood cemetery, and the other half in the grave of his second wife at White Hall, and this request was faithfully complied with.—Greenfield Argus.

SILVER WEDDING ANNIVERSARY OBSERVED BY MR. & MRS. MURPHY

There was a pleasant gathering of relatives and friends at the home of Mr. and Mrs. Patrick Murphy, northeast of town, Friday night in honor of the 25th anniversary of the marriage, says the Franklin Times. About fifty were present and while their coming was unknown to Mr. Murphy and they caught him not "looking for company" he bade them welcome in a cordial manner and happy frame of mind, and several hours were spent pleasantly in music and games. Prizes were won by Harold and Ray Ryan, Miss Nellie Dunne and Mrs. Martin Kenny. The refreshments served included oysters, pickles, crackers, celery, cake and coffee.

Mrs. Murphy before their marriage was Miss Mary Kenny, a daughter of the late Michael Kenny, for many years a well known farmer and sterling citizen of the neighborhood northeast of town. They have three children, Mamie, Sayde and Martin, intelligent young people who do their parents honor, and a host of friends who trust that they may continue to journey along life's pathway side by side for many years to come, and celebrate other anniversaries as enjoyable as they did their twenty-fifth.

SAW KNIFE WHICH WAS TAKEN FROM WOMAN'S STOMACH

Stephen Bergschneider has returned from a business trip to Chicago. While there he saw the knife, which was removed from the stomach of Mrs. Elizabeth Mochberger by Dr. G. C. Anderson. It is a silver plated table knife and for eight months Mrs. Mochberger had carried the knife in her stomach. Physicians refused to believe her when she told them what was the trouble. An X-ray was finally taken and the knife was seen lying diagonally in the right side of the stomach with the handle downward. The knife was taken out in ten minutes by the surgeon. No one knows how the blade got into the woman's stomach.

PRIZES ON R. C. REDS.
Mrs. J. W. Clary received Thursday the exhibit of Rose Comb Rhode Island Reds she has had on display at the Panama-Pacific exposition at San Francisco. She received three ribbons: sixth on cock bird and hen and eighth on cockerel. Mrs. Clary had six entries at the exposition and they arrived home in a condition which bespoke the best of care.

REV. C. E. BARNETT RESIGNS PASTORATE

Minister of Christian Church at Carrollton Goes to Lanark.

Rev. C. E. Barnett announced, at the Sunday morning service of the Christian church of Carrollton, his resignation of the pastorate, to take effect the last of the present month, says the Carrollton Patriot. He has accepted a call from the Christian church at Lanark, Carroll county, in the northwest part of the state, and is to begin his work there Jan. 1. It is understood that he is to receive a salary of \$1,200 a year, the use of the parsonage and moving expenses. The present month will conclude Rev. Mr. Barnett's second year here. His pastorate has been marked by active progress in organizing and harmonizing the work of the church. He is well liked, not only by the membership of the church, but by people of the other churches and the community in general. Everybody wishes him success in a field of wider possibilities and larger remuneration.

CONVENTION AT ALEXANDER.
The sessions Saturday afternoon and evening of the precinct convention at Alexander will be held at 2:30 and 7:30 o'clock in the Alexander M. E. church with W. B. Morris of Decatur in charge.

Of course the men will come, but we want the ladies too.

We do not need to appeal to the men—they know us.

But we want the ladies to know us just as well and to feel sure that in our store they'll find the kind of gifts they're seeking and the kind of service that makes Christmas buying easy.

So for the convenience of both the ladies and the men we provide this list of useful, appropriate and practical men's gifts, gifts that every man will greet with the spirit of sincere appreciation that is so much desired.

Our windows and interior are aglow with the Christmas spirit, many suggestions that will be a practical memory to the recipient.

If it's a man's gift, get it at man's gift store. That means
